CRIMP TERMINALS TECHNICAL DATA SHEET

PRODUCT DESCRIPTION

All of F4P Crimp Terminals feature high-quality nylon insulation. Nylon insulation resists deformation when crimped and will hold up to higher temperatures better than vinyl. Furthermore, nylon provides superior dielectric properties (rated for 600V). Don't be fooled by inexpensive vinyl terminals—nylon is the way to go!

STANDARDS & SPECIFICATIONS

UL Listed

RoHS Compliant

Rated for 600V

CRIMP TERMINAL KIT

F4P offers a large range of UL listed, RoHS compliant nylon coated crimp terminals. This handy kit supplies a variety to cover many applications on the go. All are rated for 600 volts and for use at temperatures up to 221° F (105° C).
