SERIES SPECIFICATIONS

Also known as a metal lath screw, a self-drilling screw is designed with a drill-shaped point to easily cut through sheet metal or steel, eliminating the need to create a pilot hole. This fully threaded screw has a one-piece hex washer head with a wide, flat bearing surface that reduces the possibility of crushing surfaces

PHYSICAL SPECIFICATIONS

Primary Fastener Type

Screw

Driver

Hex

Head Type

Hex Washer

Size

#8

Pkg Qty

100

Secondary Fastener Type

Self Drill

Material

Zinc Coated Steel
